PROJECTS

PathForge
React, SQL
<https://pathforge-self.vercel.app/>
A feature-rich roadmap web app like Roadmap.sh but with personalization.

CHRONIC DISEASE TRACKER WEB DASHBOARD
HTML, CSS, JS, SQL
https://github.com/dev-rahul-arya/HACK-Chronic_Disease_Tracker_Web_Dashboard
Built a chronic disease tracking dashboard during a health tech hackathon to log patient data and visualize trends. Developed interactive charts and insights to support datadriven health decisions; code available on GitHub.

SKILLS

HTML CSS JavaScript React Next.js Node.js Express MongoDB Git
GitHub C CPP Python SQL
